#### Overview valve/seat problems <100.00 km

Based on practical experiences, Prins has compiled a list of vehicles in which problems with valves/valve seats (excessive wear) may occur at a a low mileage (<100,000 km). This list is updated regularly. To keep this list up-to-date, Prins is asking their clients to report any valve/valve seat problems (service@prins.eu).

A base d'expériences sur le marché, Prins a établi une liste des véhicules susceptibles d'avoir des problèmes avec les soupapes/sièges de soupape à un kilométrage réduit (<100.00 km) (usure excessive). Cette liste est mise à jour régulièrement. Afin de tenir cette liste à jour, Prins demande ses clients de bien vouloir signaler des problèmes de soupapes/sièges de soupape (service@prins.eu).

Op basis van ervaringen uit de markt heeft Prins een lijst samengesteld waarin voertuigen staan vermeld die bij een geringe kilometerstand (<100.000 km) problemen met kleppen/klepzittingen kunnen krijgen (overmatige slijtage). Deze lijst wordt regelmatig bijgewerkt. Om deze lijst up-to-date te houden vraagt Prins zijn klanten om klep/klepzitting problemen te melden (service@prins.eu).

Auf der Grundlage von Erfahrungen aus dem Markt hat Prins eine Liste mit Fahrzeugen zusammengestellt, die bei einer geringen Kilometerzahl (< 100.000 km) Probleme mit den Ventilen/Ventilsitzen bekommen können (übermäßiger Verschleiß). Diese Liste wird regelmäßig aktualisiert. Damit diese Liste ständig aktuell ist, bittet Prins ihre Kunden, Ventil/Ventilsitz-Probleme zu melden (service@prins.eu).

## Overview petrol fuel gauge problems

Renault	Espace	> 2003	?	?	Level indication goes down during driving on LPG until tank is empty. Restarting does not reset the level indication.	AEB 392 module type P		AEB
Renault	Espace	2001-2002	?	?	Level indication goes down during driving on LPG until tank is empty. Restarting does not reset the level indication.	AEB 391 module type R		AEB
Renault	Avantime	?	?	?	Level indication goes down during driving on LPG until tank is empty. Restarting does not reset the level indication.	AEB 391 module type R		AEB
Renault	Vel Satis	?	?	?	Level indication goes down during driving on LPG until tank is empty. Restarting does not reset the level indication.	AEB 391 module type R		AEB
					Loyal indication does not as down			
Saab	97x	2006	5.3 V8		Level indication does not go down during driving on LPG but after a while the indication will be switched off. No reset afterstarting, no error code will become active.	Filling the tank to 3/4.	Saab problem	Prins

## Overview Fuel pressure problems

Brand	Model	Year of construction	Engine code	Engine capacity	Edition	Problem description	Solution	Remarks	Information source (Prins or customer)
Ford	Mustang	2005-	V8				-	-	Customer
Ford	Freestyle	2006	3000 cc V6				-	Prins module does not work	Prins
Ford	Mavarick	2004-	duratec	110 Kw		Petrol pressure becomes too high -> bad running on petrol after switching			Customer
Jaguar		<2003	2.5 V6 / 3.0 V6 / 4.2 V8				AGS simulator: contact AGS Belgium	Not possible with Prins simulator. l.c.w. the AGS simulator, vehicle does not enter limp-mode, but it is possible that a DTC will be set.	AGS Belgium
Jaguar		>2003	2.5 V6 / 3.0 V6 / 4.2 V8				AGS simulator: contact AGS Belgium	Not possible with Prins simulator. l.c.w. the AGS simulator, vehicle does not enter limp-mode, but it is possible that a DTC will be set.	AGS Belgium
Mazda	Tribute	2007	2300 cc 16V	110 Kw		Petrol pressure becomes too high -> bad running on petrol after switching	-		
Volvo	V70 R	2003-	2.5L Turbo 220 kW				-	DTC petrol pressur range/performance. Car changes between 2 different fuel pressures.	
Volvo	XC90	2006	4.4 V8				No solution by Prins	AGS belgium has a fuel return solution. A DTC is possible. Please contact AGS for more information	

# Overview miscellaneous problems

Brand	Model	Year of construction	Engine code	Engine capacity	Edition	Problem description	Solution	Remarks	Information source (Prins or customer)
Audi	A4 Avant	2003	ALT	2000 cc		Shaking during warming up phase	Special software icw temp simulation See also AUD0107	Results are good	Prins
Chevrolet	Trailblazer	2001-	LL8	4200 cc 24V		Bad idling behaviour / stalling	Special software 041/95050 and: Nylon hoses far enough inside manifold. See also CHE1007	Results are good	Prins
Dodge	Dacota	2002-	6 cyl.	4000 cc		stalling after short accelerating		Results not bad, but Prins does not advise to convert this car	Prins
Dodge	Ram 1500 & 2500	08-2005-	8 cyl.	5700 cc Hemi		In some cases injector errors will be set in the EOBD system	Solder extra resitors in the wiringloom of the injection module to change the replacement resistor value	Results are good	Prins
Fiat	Coupe turbo (5 cyl.)	2000	175A3	2000 cc		Shaking during accelerating and when the car goes into cut-of phase	Eit a turbo extension kit icw a special programmed ECU. See also FIA0207	This car is very sensitive on petrol. The problem on LPG is not 100% vanished	Prins
Opel	Vectra turbo	2005>	Z20NET	2000 cc		Shaking during accelerating and when the car goes into cut-of phase.	Fit a turbo extension kit icw a special programmed ECU. See also OPE0207	Results are good	Prins
Volkswagen	Passat	2001	AZM	2000 сс		Shaking during accelerating	Program the ECU that the Inj. in and Inj. out times are exactly the same. See also VOL0107	Results are good	Prins
Subaru	Legacy outback	1999	EJ25	2500 сс		Shaking during accelerating	Program the ECU that the Inj. in and Inj. out times are exactly the same. See also SUB0307	Results are good	Prins
