Changes & Upgrades

Installed Modules		All Modules
Acronym	Description	
BCM	Body Control Module (BCM) Install a new Module Software Updates Service Functions Configuration	
IPMA	Image Processing Module A (IPMA) Install a new Module Service Functions Configuration	
SODR	Side Obstacle Detection Control Module RH (SODR) Install a new Module Software Updates Service Functions Configuration	
RTM	Radio Transceiver Module (RTM) Install a new Module Service Functions Configuration	
DCDC	Direct Current/Direct Current (DC/DC) Converter Control Module Install a new Module	
PCM	Powertrain Control Module (PCM) Install a new Module Software Updates Service Functions	
PDM	Passenger Door Module (PDM) Install a new Module Software Updates Service Functions Configuration	
GWM	Gateway Module A (GWM) Install a new Module Service Functions	
ABS	Anti-Lock Brake System (ABS) Module Install a new Module Service Functions Configuration	
IPC	Instrument Panel Cluster (IPC) Install a new Module Service Functions Configuration	
APIM	SYNC Module [APIM] Install a new Module Software Updates Service Functions Configuration	
SCCM	Steering Column Control Module (SCCM) Install a new Module Software Updates Service Functions Configuration	
FDSM	Front Distance Sensing Module (FDSM) Install a new Module Service Functions Configuration	
GPSP	Global Positioning System Module (GPSP) Install a new Module Software Updates Service Functions Configuration	
HCM	Headlamp Control Module (HCM) Install a new Module Service Functions	
FCIM	Front Controls Interface Module (FCIM) Install a new Module Service Functions Configuration	
PAM	Parking Assist Control Module (PAM) Install a new Module Service Functions Configuration	
ACM	Audio Front Control Module (ACM) Install a new Module Service Functions Configuration	
DDM	Driver Door Module (DDM) Install a new Module Software Updates Service Functions Configuration	
RCM	Restraints Control Module (RCM) Install a new Module Service Functions	
SODL	Side Obstacle Detection Control Module LH (SODL) Install a new Module Software Updates Service Functions Configuration	
PSCM	Power Steering Control Module (PSCM) Install a new Module Service Functions Configuration

Software Updates - Powertrain Control Module (PCM)

[Instructions](#)

Software Update

This application enables the user to update the module to the latest software level.

20150910-G1693109-19

The following Technical Service Bulletin (TSB) is relevant to this Software Update:

As part of the Ford Motor Company Continual Program Improvement Process, a later version of software is available for this module.
